

PAYMENTS INTELLIGENCE TO ENRICH,  
PROTECT AND GROW YOUR BUSINESS

aiGateway™

## White-Labelled Payment Gateway & Fraud Service

A high-availability, high-performance, PCI-compliant white-label omni-channel payment gateway with integrated fraud prevention. Providing high-speed merchant sign-up and boarding with access to mainstream and alternative payment methods, ensuring maximum sales conversion and payment acceptance, whilst mitigating any risk exposure.

Bespoke branding

All major card schemes & APM's supported

Powerful real time risk management using RiskNet®

Multiple acquirer connections

Recurring and budget billing

All leading shopping carts supported

Global interchange engine

Quick & easy merchant boarding

A fully white-label, payment gateway and fraud prevention system that is suitable for companies of all sizes, from SMEs to multi-national corporations. The system can be deployed either as a fully managed and hosted payment solution, or as a licensed solution, allowing regional deployment to comply with national regulations, whilst maintaining international acquirer access. The platform uses state-of-the-art technology, which delivers a user experience that is reliable, easy-to-use, and complementary to day-to-day transactional needs.

“a high-performance payment gateway that is easy to deploy, simple for merchants to integrate and use, robust and fully scalable, however big your business grows”.

### Online Payments

100% secure payments for e-Commerce transactions with built in fraud protection for all major credit/debit cards

### Telephone Payments

Allows you to take credit or debit card payments over the phone using a virtual terminal

### Powerful reporting

Comprehension reporting enhanced with back end analytics using SmartIntelligence™

### PayByLink

Multi-functional tool that generates a unique link to a secure payment page for distribution via invoice or embedding in a website

### Tokenisation

Securely stores card details for returning customers, reducing your dropout rates at checkout

### Scheduled transactions

Scheduled and recurring transactions can be set up easily using the Merchant Management System
